

In response to your letter dated June 7 regarding the April Monthly Report please note that the debt listed to Infocision Management Corp was incorrectly recorded in a prior report and had been removed in an amended version. An explanation was included. The same debt had not been correctly removed from the system and appeared on the report in error. It has been removed.

The name of the International Association of Fire Fighters has been corrected.

The receipts from Pence and Tauzin have been clarified to show both as Transfers of Excess Campaign Funds.

The original contribution from Deborah Benoit has been itemized correctly. Our system faield to include the contribution due to a coding error that used the refund as an offset and the original contribution was not counted since the two transactions in the same period equaled zero dollars.

A full amendment has been filed by the Committee. Please contact me with any questions or concerns.
